INTENTION OF GROWTH

From the founding year, 2003 to 2009 the USASF made huge strides toward the ultimate goal of cheerleading safety. Although the entirety of this goal has not been reached, the 5 years since it's inception has created the platform for unity in the sport and gyms. The standards for proper care and educations are in place and have been created by the experts in every aspect of the field. These rules alongside stated and set operational standards, all-star cheerleading gyms create a controlled and safer environment for youth to learn and benefit from the sport that they love. It is the intention of USASF to become the natural, and therefore mandatory, standard of care in any program competing all star teams. By reaching to each and every program, teaching them proper training techniques, age and level guidelines and safety standards. Recognizing international and national regulations for all-star cheerleading and dance safety.
